

## About Baxter Palliative Care

Baxter Palliative Care is an independently owned healthcare practice caring for individuals **living** with a serious illness. The focus of this care is on providing relief from symptoms and improving the quality of life for both the patient and family. Palliative care focuses on the needs of the patient. It is appropriate at any age and stage of serious illness and can be provided along with curative treatment.

*Baxter Palliative Care's mission is to provide high quality, compassionate, person-centered care for those with serious illness that improves quality of life and aligns care with patient wishes.*

Looking for volunteers, who like to cook and or drive, to deliver meals to our homebound patients

*\*Please call the office for more details \**

## Sun Star Healing & Myofascial Release

Margot Jones, OTR/L

“Myofascial Release is a holistic hands-on healing method of treatment to release restricted fascia in the body that manifests in the form of pain, immobility, fatigue, disease, and/or emotional distress. Fascia is often overlooked in traditional medicine as it does not show up on X-rays, CAT scans, or MRI's.”
